In order to manage a growing number of opportunities, we are looking for an « IT Developer ».

IT Developer – start-up (M/F)

RESPONSIBILITIES

As an « IT Developer », you **develop, test and deploy the digital solutions of the company**. Working in close collaboration with the company's business experts and after a period of training, you participate, with the Head of IT, to the IT solution development.

Your main responsibilities are:

- **Development back-end and front-end** : web and mobile applications and tooling.
- **Testing:**
 - development of unit tests,
 - development of integration tests (selenium),
 - maintenance and execution of the tests.
- **Deployment:**
 - conception and realization of docker images.
 - installation of own tools.
 - installation of software/hardware of our customers.
 - maintenance services.
- **Integration:**
 - analysis of the customers' needs with the Head of IT,
 - development of API (with data communication protocol) between our products and customers devices,
 - integration with customer IT services.
- Report to the Head of IT.

PROFILE

- You hold a master's degree in IT or equivalent by experience.
- You have minimum 2 years' experience with different languages; Web-RTC, C++, Python, Jango, Elixir. **Applications from young graduates are welcome.**
- You are passionate about development and technology.
- You are able to learn new technologies quickly and evolve within a startup environment, bringing new ideas and come up quickly with innovative solutions.
- You are result-oriented, autonomous and proactive.
- Good knowledge of English and French.
- Willingness to visit customers in Wallonia and sometimes in France.

OFFER

- The opportunity to join a fast-growing high potential scale-up.
- Integration within a professional and motivated team.
- True autonomy and flexibility in organizing your daily activities, with regular homeworking.
- An attractive compensation package in line with your experience and involvement.
- A full-time position and a permanent contract.
- New offices in Gembloux in 2024.
